The Central Scouting Bureau of the Ontario Hockey League is an information service and support organization designed to provide the Member Teams with a reference in regards to the players available for selection in the annual "Priority Selection Process."

The primary objective of OHL Central Scouting is to identify, rate and rank players to be eligible for the Priority Selection, according to their OHL potential.

OHL Member Teams combine player data received from the Central Scouting Bureau with evaluations from their team scouting staffs to make their player selections.

The OHL Central Scouting Bureau has been evaluating players since the 1975-76 season.
